SAFETY DATA SHEET ACC. TO OSHA HCS

Version: 1.0
Date of printing: 10.02.2016
Date of preparation / last revision: 31.07.2014

Trade name: natraDri Compound

1. Identification

2. Hazard(s) identification

Classification of the substance or mixture: The product is not classified according to the Globally Harmonized System (GHS).

Information concerning particular hazards for human and environment: No hazards to be particularly mentioned. Please note the information of this Material Safety Data Sheet.

Classification system: The classification complies with current legislation, but is supplemented with information from technical literature and company information.

Label elements

<table>

Reactivity = 0

HMIS ratings (scale 0 – 4)

| Health Hazard | 0 |
| Fire Hazard   | 0 |
| Reactivity    | 0 |

Other hazards
Results of PBT and vPvB assessment
PBT: Not applicable
vPvB: Not applicable

3. Composition / information on ingredients

Chemical characterization
Natural wood flour, moistened with water based cleaning solution

Description
Mixture of the substances listed below with non-hazardous additions

Dangerous components
9036-19-5 alkylpenol ethoxylate
Acute Tox. 4, H 302; Eye Dam. 1, H 318
< 1%

26530-20-1 2-octyl-2H-isothiazol-3-one
Acute Tox.3, H311;
Acute Tox.3, H331;
Skin. Corr. 1B, H314; Acute Tox. 4, H302; Skin Sens. 1, H317
< 1%
Trade name: natraDri Compound

Additional information
For the wording of the listed risk phrases refer to section 16.

TSCA
All components are listed
7732-18-5 water, distilled, conductivity or of similar purity

4. First-aid measures

Description of first aid measures
General information: If symptoms persist or in case of doubt seek medical advice.

After inhalation: Supply fresh air; consult doctor in case of complaints. In case of unconsciousness place patient stably in side position for transportation.

After skin contact: Immediately wash with water and soap thoroughly. If symptoms persist, consult a doctor.

After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

After swallowing: Do not induce vomiting. Drink plenty of water, but never give anything to an unconscious person. If symptoms persist consult a doctor.

Most important symptoms and effects, both acute and delayed
Allergic reactions.

Indication of any immediate medical attention and special treatment needed
Symptomatic treatment (decontamination, vital functions).

5. Fire-fighting measures

Extinguishing media
Suitable extinguishing agents: CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Use fire fighting measures that suit the environment.

For safety reasons unsuitable extinguishing agents
Water with full jet.

Special hazards arising from the substance or mixture:
In case of fire, the following can be released:
- Carbon monoxide and carbon dioxide
- Nitrogen oxides (NOx)
- Sulphur oxides (SOx)
- Hydrogen Chloride (HCl)
- Risk of formation of toxic pyrolyzates
- Fume

Advice for fire fighters
Protective equipment: Do not inhale explosion gases or combustion gases. Wear self-contained respiratory protective device. Wear fully protective suit.
6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Wear protective clothing.
Avoid contact with eyes and skin.
Do not breathe aerosol or vapors.
Ensure adequate ventilation
Use respiratory protective device against the effects of fumes/dust/aerosol.

Environmental precautions:
Do not allow product to reach sewage system or any water course.
Do not allow to penetrate the ground/soil.

Methods and material for containment and cleaning up:
Sweep or vacuum up and dispose according to regulations.
Send for recovery or disposal in suitable receptacles.

Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

7. Handling and storage

Precautions for safe handling
Ensure good ventilation / exhaustion at the workplace.
Prevent formation of aerosols.
Do not breathe aerosol or vapours.
Avoid contact with eyes and skin.

Information about protection against explosions and fires:
Keep ignition sources away – Do not smoke.
Observe the general rules of industrial fire protection.

Conditions for safe storage, including any incompatibilities

Storage
Requirements to be met by storerooms and receptacles: store receptacles tightly closed at a cool and dry place with sufficient ventilation.
Information about storage in one common storage facility: Store away from foodstuffs.
Store away from feed.
Protect from heat and direct sunlight.

Recommended storage temperature: 20°C
Storage time: Under optimal storage conditions, in original unopened drums/containers. 12 month in closed receptacles.
Storage class: 10-13 other combustible and non-combustible substances
Specific end use(s): Follow the directions!
8. Exposure controls/personal protection

Additional information about design of technical systems:
Install appropriate mechanical ventilation/exhaustion.
No further data, see section 7.

Control parameters
Components with limit values that require monitoring at the workplace:
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Additional information:
The lists that were valid during the creation were used as basis.

Exposure controls
Personal protective equipment:
General protective and hygienic measures:
The usual precautionary measures for handling chemicals should be followed.
Do not eat, drink, smoke or sniff while working.
Avoid contact with the eyes and skin.
After skin contact, cleanse skin thoroughly.
Se skin protection cream for skin protection.
Wash hands before breaks and at the end of work.
Immediately remove soiled, soaked clothing and use again only after washing.

Breathing equipment:
In case of unintentional release of substance, exceeding the occupational exposure limit value:
Short term filter device: Filter A/P2
A respiratory protection program that meets OSHA’s 29 CFR 1910.134 and ANSI Z88.2 requirements or European Standard EN 149 must be followed whenever workplace conditions warrant a respirator’s use.
Always use a NIOSH or European Standard EN 149 approved respirator when necessary.

Protection of hands:
Chemical resistant gloves (EN 374)
The gloves material has to be impermeable and resistant to the product / the substance / the preparation.

Due to missing tests no recommendation to the glove material can be given for the product / the preparation / the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.
After use of gloves apply skin-cleaning agents and skin cosmetics.

Material of gloves
Nitrile rubber, NBR
The selection of the suitable gloves does not only depend on the material, but also on further
Trade name: natraDri Compound

marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:

Tightly sealed googles as described by OSHA’s eye and face protection regulations in 29 CFR 1910.133

Body protection:

Protective work clothing

9. Physical and chemical properties:

Information on basic physical and chemical properties

Form:
Solid, pulpy

Colour:
yellow

pH Value:
Approx. 5 - 6.

Odor:
characteristic

Density:
Not determined

Flash point:
Not applicable.

Flammability:
Not applicable.

Danger of explosion:
Product does not present an explosion hazard.

Solubility in / miscibility with water:
Not applicable.

Solvent content:
22,7 g/l 0,19 lb/gl

10. Stability and reactivity

Reactivity:
No further relevant information available.

Chemical stability:
No decomposition if used and stored according to specifications.

Thermal decomposition/conditions to be avoided:
No dangerous reactions known.

Possibility of hazardous reactions:
No further relevant information available.

Conditions to avoid:
Strong oxidants, Reducing agents, Amines, Strong leaches.

Incompatible materials:

Hazardous decomposition products:
No hazardous decomposition products if instructions for storage and handling are followed.

11. Toxicological information

Information on toxicological effects

Acute toxicity:
ATE oral: > 5000 m/kg
Trade name: natraDri Compound

26530-20-1 2-octyl-2H-isothiazol-3-one

Oral LD50 550mg/kg (rat)
Dermal LD 50 690 mg/kg (rabbit)
Inhalative LC50/4h 0,27 mg/l (rat)

Primary irritant effect
On the skin No irritating effect.
On the eye No irritating effect.
Sensitization No sensitizing effects known.

Additional toxicological information
Presently no toxicological, chemical and physical data are available on which a more precise evaluation of further dangerous properties could be made. The properties of this substance have not been fully investigated. Further hazardous properties cannot be excluded. When used and handled according to specifications, the product does not have any harmful effects according to or experience and the information provided to us.

Carcinogenic categories
IARC (International Agency for Research on Cancer) None of the ingredients is listed.
NTP (National Toxicology Program) None of the ingredients is listed.
OSHA-Ca (Occupational Safety & Health Administration) None of the ingredients is listed.

12. Ecological information

Toxicity
Aquatic toxicity No further relevant information available.
26530-20-1 2-octyl-2H-isothiazol-3-one
EC50 0,031 mg/l (Algae)
EC50/48 h (static) 0,18 mg/l (Daphnia magna)
LC50/96 h (static) 0,196 mg/l (Lepomis macrochirus)
0,047 mg/l (Oncorhynchus mykiss)

Persistence and degradability
Bioaccumulative potential No further information available.
Mobility in soil No further relevant information available.
Additional ecological information Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

General notes
Results of PBT an vPvB assessment PBT Not applicable.
vPvB Not applicable.
Other adverse effects No further relevant information available.

13. Disposal considerations

Waste treatment methods
Recommendation: Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Disposal according to instructions of local
Trade name: natraDri Compound

Uncleaned packagings:
Recommendation: Disposal must be made according to official regulations.
Recommended cleansing agent Water, if necessary with cleansing agents.

14. Transport information

UN-Number
DOT, ADR, ADN, IMDG, IATA Void

UN proper shipping name
DOT, ADR, ADN, IMDG, IATA Void

Transport hazard class(es)
DOT, ADR, ADN, IMDG, IATA Class Void

Packing group
DOT, ADR, ADN, IMDG, IATA Void

Environmental hazards:
Marine pollutant No

Special precautions for user Not applicable

Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable

Transport/Additional information Not dangerous according to the above regulations.

UN “Model Regulation” -

15. Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture

Carcinogenic categories Void

EPA (Environmental Protection Agency) Void

TLV (Threshold Limit Value established by ACGIH) Void

MAK (German maximum workplace) Void
SAFETY DATA SHEET ACC. TO OSHA HCS

Trade name: natraDri Compound

16. Other Information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Wording of the listed risk phrases:

H302 Harmful if swallowed.
H311 Toxic in contact with skin.
H314 Causes severe skin burns and eye damage.
H317 May cause an allergic skin reaction.
H318 Causes serious eye damage.
H331 Toxic if inhaled.

Abbreviations and acronyms:

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
RID: Règlement international concernant le transport des marchandises dangereuses par chemin de fer (Regulations concerning the International Transport of Dangerous Goods by Rail)
IMDG: International Maritime Code for Dangerous Goods
DOT: US Department of Transportation
IATA: International Air Transport Association
ACGIH: American Conference of Governmental Industrial Hygienists
Trade name: natraDri Compound

GHS: Globally Harmonized System of Classification and Labelling of Chemicals
EINECS: European Inventory of Existing Commercial Chemical Substances
ELINCS: European List of Notified Chemical Substances
CAS: Chemical Abstracts Service (division of the American Chemical Society)
NFPA: National Fire Protection Association (USA)
HMIS: Hazardous Materials Identification System (USA)
VOC: Volatile Organic Compounds (USA, EU)
LC50: Lethal concentration, 50 percent
LD50: Lethal dose, 50 percent
