CAS #151-21-3

None of the materials in this product are on the IARC, OSHA, or NTP carcinogen lists.

IV Special Protection and Precautions

Hygienic Practices: Wash hands after direct contact, prior to food breaks, and at end of shift before doing home. Do not wear product-contaminated clothing beyond shift without laundering first.

Engineering Controls: Use local exhaust to minimize exposure to dusts or fumes.

Personal Protective Equipment: Wear safety glasses. For sensitive skin or if handling product for prolonged or repeated periods, wear nitrile, neoprene, or natural rubber gloves. Wear material resistant gauntlets to protect bare forearms if long sleeve shirts are not being worn.

KEEP OUT OF THE REACH OF CHILDREN

V Spill Procedures/Waste Disposal

Spill Procedures: Absorb and containerize. Wash residual down to sanitary sewer. Contact the sanitary treatment facility in advance to assure ability to process washed-down material.

Waste Disposal: Dispose of in accordance with all applicable federal, state, and local regulations.

VI Reactivity Data

Stable under normal use and storage conditions. May react with strong acids and oxidizers.

VIII Fire and Explosion Data

Cleaning lotion used to impregnate the non-woven fabric is not flammable or explosive (Flashpoint >210 °F). Non-woven fabric supports combustion when ignited. Polyurethane will burn if exposed to sufficient heat source. Once ignited, it may degrade and melt to a combustible liquid.

Products of non-woven combustion: Oxides of carbon, sulfur, and nitrogen; aliphatic and aromatic hydrocarbons.

Products of polyurethane combustion may include carbon monoxide, acetaldehyde, acrylonitrile, toluene diisocyanate, oxides of nitrogen, and hydrogen cyanide.
